Allowable Subject Matter

1. This action is in response to the communication dated April 11, 2005.
2. Applicant's election with traverse of claims 9-25 in the reply filed on April 11, 2005 is acknowledged. The traversal is on the ground(s) that claim 1 is generic relative to claims 17 and 18 which may be used to practice the method of claim 9. This is found persuasive and the restriction requirement is withdrawn.

3. Claims 1-25 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The present invention is directed to programmable logic device (PLD), more particularly to protection of designs loaded into a PLD through a bitstream. Each independent claim (claims 1, 9, 17 and 18) identifies the uniquely distinct features "at least one bit for indicating whether more keys will follow" and "one respective bit that indicates whether the key is a last of the plurality of keys". The closest prior art, Kean (2001/0015919) discloses the method and apparatus for secure configuration of a field programmable gate array, fails to anticipate or render the above limitations obvious.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Minh Dieu Nguyen whose telephone number is 571-272-3873. The examiner can normally be reached on M-F 6:00-2:30.
